

# Our facility is customized for the outdoor enthusiasts

Our goal is to teach individuals of all ages and experience levels the safest and most effective way to use firearms, archery, and wilderness survival tools.

Our instructors come from backgrounds that will promote practical application from their real-world experiences from the Military, Law Enforcement, and own personal real world scenarios.

## Membership

Become a member of FAST Center to save money on courses, services, and shooting supplies.

## NO GUN.....NO PROBLEM

FAST Center is offering some of the most popular and reliable firearms to rent for use at our range. It is the perfect opportunity to see what gun is best for you before you commit to the investment.

# FAST Center

A complete training center for firearms, defensive tactics, archery, and wilderness survival. Our family friendly environment makes it comfortable for everyone to have a great time while they refine their skills.

## Sign up today

Even if you are just starting in the shooting sports or want to refine your skills the FAST Center is set up to teach individuals, women's groups, company retreats, corporate events, and folks that want to be proactive instead of reactive. We can customize private lessons to meet each specific skill or need from a basic firearms lesson to wilderness survival and much more!

## Security Programs

We have developed a 24-month program to help facilities, churches, and businesses organize and improve their security awareness. We work with or assist in the development of their existing personnel to ensure they respond to a threat in a organized and professional manner. We will train in tactics to include the use of non-lethal weapons, force continuum, and firearms.

## Range

Our 30-yard outdoor live fire range feature 12 static lanes to shoot at from various distances. We then have 2 additional lanes to focus on undetermined distances and tactical maneuvers.

Our Range will be rented per lane by the half hour and full hour time slots.

The live fire range will have a certified Range Safety Officer at all times to ensure safe and professional training is conducted at all times.

## Who We Are

From advanced tactics training to Dept. of Defense to a beginner level student our instructors have experience in all level of firearms training:

*"I was actually scared to shoot a gun until I went through the course. I definitely have more confidence now" – Beth B. (student)*

It is our belief that by continuous training and practice, you will increase your chances of surviving an incident by improving your reaction time and confidence.
